

## JACK SULLIVAN, THE PHILANTHROPIST

HE GOES IN THE HOLE FOR THE SAKE OF "DE KIDS ON DE STREET WOT AIN'T GOT NO SHOW."

A CORNER IN THE NEWSBOYS' "GYM."

New York, April 5.—For twenty years back Jack Sullivan has been a New York newsie. Jack is not a rich man, but he is a philanthropist, and not long ago he "went in the hole," as he puts it, to the tune of about \$5,000 for the sake of the kids who sell "poppers" in the vicinity of Park Row. He founded the Newsboys' Athletic Club.

The club is situated in the midst of the densely populated lower Eastside, at 74 East Fourth street, just off the Bowery. There is a fine gymnasium, to say nothing of a reading room fully equipped with furniture and books and magazines without end. Upstairs is the reading room and night school, while on the third floor is a place for some of the little chaps "wot hasn't got any place to pound der ears in." There are plenty of shower baths and thirty white cots.

Very confidentially Jack gives it out that athletics are only a bait;

that the reading room and the school are the real objects that he has in view in opening his newsies' club.

"De kid on de street aint got a show now," he says. "At night he stays on de street or strikes de gin mills. When he gets along a ways he finds he can't read; den he's ashamed to go to night school wot de young 'uns. Whenever de rich guys start anything for de boys dey put up a preacher on 'em and it's all off. To teach de kids to read and write you got to give something besides books. I knew dat a gymnasium would fill de bill, and here it is.

"Tain't charity, for de kids are members. Dey will pay about 50 cents a month to be members. Them as can't don't have to.

"I don't want nuttin' out o' dis, I'm gettin' even 'cause I didn't have no chance meself. I never give an inch to no man. De boys on de street all know me."

day morning when Frank Nordhaus went to the store to open for business.

The officers were at once notified, but no clue to the robbery has as yet been found.

The robbers used a brace and bit and a chisel with which to cut the hole, and these tools were found back of the store in the alley. They were identified by a local blacksmith as tools from his shop and a rear window was broken out of the blacksmith shop.

Officers think the robbery was committed by local parties who were familiar with the store.

## NEGRO SCHOOL AT TUSKEGEE, ALABAMA

Booker T. Washington's Industrial Institute Holds Its Twenty Fifth

ANNIVERSARY OF FOUNDING

Housewives Ordered For Our Army. Michigan University Orator Is a Japanese.

Tuskegee, Ala., April 5.—Yesterday was opening day of the celebration in honor of the twenty-fifth anniversary of the establishment of the Tuskegee Normal and Industrial Institute and everybody seems to be in favor of excitement and anticipation. The celebration will last three days and will begin this evening with a large meeting, which will be attended by the students, the members of the faculty and a large number of invited guests including Andrew Carnegie, President Eliot of Harvard University; Secretary of War Taft, Robert C. Ogden, president of the Southern Education board; Seth Low and many other men of distinction.

Some of the invited guests have already arrived, while others are expected here this afternoon. Mr. Ogden, who is also president of the board of trustees of the institute, will bring a number of his friends from New York on a special train. The list of speakers, who will deliver addresses during the three days of the celebration includes, besides those already mentioned, the following: Bishop William Crowell Doane, who will preach the anniversary sermon; Dr. M. C. B. Mason, corresponding secretary of the Freedmen's Aid and Southern Education society of the Methodist Episcopal church of Cincinnati; Principal Booker T. Washington of Tuskegee Institute; Judge W. H. Hunt, of Tuskegee; Prof. S. G. Atkins, secretary of the board of education, African Methodist Episcopal Zion church, Winston-Salem, N. C.; the Right Rev. A. Grant Bishop of the African Methodist Episcopal church, Kansas City, Kan.; J. C. Napier, president of the One Cent Savings bank, Nashville, Tenn.; President John H. Alvercomb of the University of Alabama; Dr. E. C. Morris, president of the National Baptist convention, Helena, Ark.; Dr. Lyman Abbott, Dr. H. B. Prissell, principal of Hampton Institute; Dr. W. Bruce Evans, principal of the Armstrong Manual Training school, Washington, D. C.; Bishop G. B. Galloway of the Methodist Episcopal church, South, of Jackson, Miss.; Oswald Garrison Villard of the New York Evening Post, and others.

HOUSEWIVES FOR THE AMERICAN ARMY. Washington, D. C., April 5.—The subsistence officer in the Army building in Whitehall street, has been instructed by Commissary General Sharpe to get up what is known as a "housewife." This is one of the ideas adopted from the Japanese, who equipped their soldiers with these little packages, containing useful articles which men are likely to need when they are away from home. In the soldiers' new kit which the general staff of our army recommended for adoption there is provided a "housewife," to contain some buttons, thread, pins and, if practicable a pair of small scissors. The work of getting up this new article, which will be given to each of the sixty thousand soldiers of the army, will devolve on the subsistence department, and for the present the army commissary in New York will have the work of preparing samples, if he can find nothing in the department stores to answer the purpose. Of course, the article must be a model of condensation, so there may be a minimum of weight combined with an economy of space. The "housewife" will have to be carried by the soldier, and it is desirable that the burden of the trooper shall be increased as little as possible.

### MICHIGAN UNIVERSITY REPRESENTED BY JAP.

Ann Arbor, Mich., April 5.—For the first time in history the University of Michigan will be represented by a student of an eastern race in the contest of the Northern Oratorical league, which will be held this year at Oberlin, Ohio, on the evening of May 4. The young man who will have the honor of representing the University of Michigan in that inter-collegiate contest against representatives of six other universities and colleges is Kyo Sue Inami of Kyoto, Japan, a member of the senior class in the literary department.

Ever since he entered the university four years ago Mr. Inami has taken a prominent part in oratorical contests, always winning high rank and honors. Last year in the university oratorical contest he won second place with an oration on "The Sick Man of Asia and His Doctors." This year he won first place with an oration on "The Mission of New Japan." Every summer he arranges a lecture tour through Michigan and adjoining states. His favorite topics are the various phases of the eastern question. He is a member of the Alpha Nu Literary society and the founder and first president of the Cosmopolitan club.

### PROSPECTS FOR A GOOD FRUIT CROP FINE AT ROSWELL

Orchardists at Roswell are feeling very cheerful over the promise of a good fruit crop this year. It is stated by good judges that if no more killing frosts occur, there will be part of a crop of peaches and an abundant crop of every other kind of fruit. The apple orchards are now coming into bloom and are a beautiful sight. Many peach trees have bloomed since the last frost and will bear nicely if the weather remains propitious.

"Suffered day and night the torment of itching piles. Nothing helped me until I used Doan's Ointment. It cured me permanently."—Hon. John R. Garrett, Mayor, Girard, Ala.

A GASTRONOMICAL TREAT WILL BE SERVED DAILY AT THE WHITE ELEPHANT MERCHANTS' LUNCH FROM 11 TO 2:30.

DELIVER IN THE OCCULT USES SENSITIZED PLATES WHEN HE "SNAPS" ASTHIAL PORTIONS OF THE ANATOMY.

Thought Portrait

Colorado Springs, Col., April 5.—Recent experiments by A. K. Cutting, a deliver in the mysteries of occult forces, have led him to believe he has made wonderful discoveries.

Cutting has been a resident of Colorado Springs for many years. Some time ago he began investigating so-called thought photography, or the transfer of mind pictures to sensitized photographic plates.

The theory upon which Cutting is making his experiments is that the brain is a reservoir of a vital or magnetic fluid and that this fluid makes its mark upon a photographic plate as a reproduces the object of thought.

Seated in a dark cellar, Cutting held an ordinary 4x5 plate pressed against his forehead and concentrated his mind upon the facial expression of his father, which he remembered only from an old photograph. The plate remained tied against his forehead for half an hour and was then developed in the usual way. Cutting asserts that the features of his father were easily seen, and that he has made several prints from the negative.

Cutting also exhibits the photograph of the "astral" finger of Joseph Murphy, a railroad brakeman, who lost that part of his anatomy several months ago.

His last interesting experiment took place when he called in Chas. B. Myles, street commissioner of Colorado City, to subject him to the test. Myles lost his right arm several years ago, and Cutting claimed that he could produce a likeness of the missing member.

Myles selected a plate from a gross in Cutting's stock room and held the plate in his own hand for twenty minutes.

"When the crucial moment arrived," said Cutting, "it appeared to me as if some one had put off a flashlight, and

by that I knew that I had the impression of the arm. I plunged the plate into the developer and when I took it out found the likeness of the arm as I had expected."

Caught Cold While Hunting a Burglar.

Mr. Wm. Thos. Lanorag, provincial constable at Chapleau, Ontario, says: "I caught a severe cold while hunting a burglar in the forest swamp last fall. Hearing of Chamberlain's Cough Remedy, I tried it, and after using two small bottles, I was completely cured." This remedy is indicated especially for coughs and colds. It will loosen and relieve a severe cold in less time than by any other treatment and is a favorite wherever its superior excellence has become known. For sale by all druggists.

# You May Buy or You May Wait

## But Things **MUST** Come Our Way!

## You'll Have to, Also!

## YOU May Think We Are **SPECULATING**

## WE Know We Have a **"GOOD THING"**

**Remember:** That WE can afford to wait, but YOU cannot; in growing cities, the best residences are seldom built on the low lands. That we are the sole owners of the only heights overlooking the center of the city and which, covering over fifty square blocks, are but eight blocks distant from the heart of the business district. That, having held this tract intact for years, we now are offering it for residence purposes only, and that our deeds will exclude, for all time, all factories, stores, saloons, boarding houses, etc. That we are expending in improvements over FIFTY THOUSAND DOLLARS and TWO YEARS WORK and, at our own expense, are grading the lots and streets, building cement walks and planting trees. That we own our own water plant and will furnish you from deep wells, an ample supply of soft water at a price lower than the present rates. That the entire tract will be graded to a gentle slope, permitting to every residence the Best of Drainage, Broad, Low Terraces, and a Magnificent View of the Mountains, Mesa, City and Valley. That here you are above the dust and the dirt—or mud—the smoke and the noise of less favored localities. **REMEMBER THAT:**

### The Natural Advantages We Had—We Made the Artificial!

That SILVER AVENUE, and its adjacent blocks, the only street now ready, the CREAM OF THE ENTIRE ADDITION, will be the FINEST IN ALL NEW MEXICO OR ARIZONA. That, beginning at one park and ending at another, and also parked on both sides throughout its entire length, it is a boulevard eighty feet broad, lying on the crest of the highest ground in the tract.

That on this avenue a thirty-foot building line is imposed, that the lots are sold only in sites of 100x132 feet, that no dwelling may cost less than \$4,000, and that the purchaser insures to himself and his heirs, his home amid beautiful residences and the quiet and refinement of such surroundings. That the sixty sites of this avenue are so advantageously situated that nothing similar can ever again be offered in the City of Albuquerque.

Also Remember That the Majority of the Directors of this Company Have Bought Here and Expect to Build at Once.
